It helps if can add any info about the captures. Like what country they are from? Do you know who

the internet providers might be? You say you have tried everything, what have you run, saves us wasting time running what you have already run.

oh my god. a 10 digit pass normally takes 24 hours, 9 takes 2 hours. How did you crack all of them
too fast? I really appreciate it
i've been trying to crack this 3 handshakes around, living in turkey

>tried turkish wordlists and rockyou
>8 digit number masks

do you have any alternative idea to use when crackin?
