Thread: [\[L33t/Ub3r\] FREE Crypting Service \[Private & Long Lasting FUD\]](#)

NextGeneration - June 4, 2020, 1:59 am

Hello.

I'm doing a free crypting service. Your file will be converted to a FUD .js file.

If you're interested, let me know what malware you're using and I'll let you know if I can crypt it.

If you're ratting, I recommend Async. Let me know guys I'm here all day! ?

Will that be a crypt or a Loder/dropper?

Cause Crypts output can not be js

I'm using vSupreme Crypter then obfuscating the .js output with a private obfuscator I pay a lot of money for. ?

in this case you need to mention it will only work for .net files.

Correct thank you for clearing that up. I recommend people use Async then upload via memory. ?

It is free tho anyone can find easily download and use it also .js Obfuscator Tool available freely.

Maybe someone scammed you to buy your obfuscator

Wouldn't that be wonderful? There would then be no need to buy crypters etc. No, this is completely FUD. It costs me a lot. Public obfuscators will lead to detections. Prove me wrong? If you don't appreciate my service, don't post on my thread.

Are you stupid? Read the title and stop trash posting. Why buy l33t if you're going to post like an idiot?

OP made a post about finding 'bank info' and 'credit cards' on someone's PC.
He claims that on the same day he joined HF, and on the same day he offers other 'l33t/ub3r' members to crypt for free.

I didn't even know the difference(s) in upgrades on my first day of August 2019..
Oh and the 5 matching IP's aren't helping, but I'm sure it's "a VPN" right? F*ck off kid.

You're a horrible person, you know that? I'm being a HQ member here. And yes it must be the VPN.
I do not want to be arrested.
