I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Hmm, I've never really seen the use of the live viewers. Because of the fact that say you order 1k viewers, and literally no one is chatting in the chat... its obviously going to look fake. And if you have 20k followers, 40k total views, and then when you go live, you don't have anyone watching... its

going to be suspect as fuck, then you get reported. Which will most likely result in a ban. I've literally had a friend who was banned for this stuff. You may gain affiliate status, but you won't be partnered.

Just my 2 cents on this. GLWS tho.

Our service is unique because each live viewer comes with a over 15k words handwritten in a notepad to seem the most legit as possible, this of course costs extra \$

Won't recommend using this. User is using our product name.

So you wouldn't recommend his service because of the most generic name in the industry?

Generic? You can google streamertool & twitch and see the results yourself. (Just use your brain once in a while)
