Thread: [ANTISCAN.ME distribute Scan Result.](#)

hyjun0407 - June 8, 2020, 1:02 am

I make fud 0/28 detection stub, and JUST upload to antiscan.me After some hour(4hour~6) Some victim connect with my client. I was suprised because I didn't share my stub anywhere. So I check out Their's Desktop. I Saw Victim analyzed my Stub using so many tools such as ollydbg Fiddler Wireshark and Process explorer etc.. They Analyze My stub's header and Some function. I just uploaded stub on the antiscan.me that's all.. I used Free 3 scans per days. What the hell is going on Antiscan.me Distribute Scan Result Fuxx

Do you have AV installed?

hyjun0407 - June 8, 2020, 6:13 am

NOPE I always disable wd. And I didnt use any addition av

May you post a screenshot or video for you WD settings? Did you use VMware? Does the VM or Main PC have AV?

hyjun0407 - June 8, 2020, 6:28 am

I USED Main computer. And No any AV installed.I blocked wd with register value change.

doomkit - June 8, 2020, 6:36 am

Are save your Stub or exe on cloud/hosting file ?

hyjun0407 - June 8, 2020, 6:40 am

Nope Only upload antiscan.me

doomkit - June 8, 2020, 6:45 am

(Jun 8, 2020 06:40 AM)hyjun0407 Wrote: [\[CITE\]](#) Nope Only upload antiscan.meMaybe i to paranoia. I have bad felling about this either antiscan.me is really distribute (or somehow server is have hole), or you OPSEC/security is being compromised, You better move from wherever you position now.

Cyber Coder - June 8, 2020, 7:59 am

could be intentional or by mistake

on my cyberscan.org i found out in the 1st week that 2 avs are distributing even with their option to distribute OFF and even if their internet was off 99% of the time so i had to rethink my update mechanism to make sure no av ever sees an internet connection after a scan was made.

but since i'm running a crypter you can tell for sure my scanner isnt and will never distribute

HiddenStore - June 8, 2020, 9:12 pm

fyi, some crypters here are not real crypters. they are the real feds lol.
mostly when the crypter is cheap and have many vouches etc.

my 2cent.

my 2cent.Where did you get this information from?

lokichopa - June 9, 2020, 6:06 am

antiscan distribute hash with AV compagnie

donoharam - June 9, 2020, 2:59 pm

Ive had bad experience with anti scan as well. Do not recommend brother

Fluxe - June 23, 2020, 1:29 pm

does the pc have default blue w10 bg with multiple cmd prompts open
