Thread: [E-whore landing page for traffic and professional look?](#)

anselem - June 10, 2020, 7:23 am

As the tile says isnt it an idea to make this? i can push traffic to it, look myself to be an professional, and some free stuff on it and include social media. Also, i can show my prices more easily. Has anyone tryed this? Does it even works?

The big advantage is thath u look more professional and not a scammer. I can also monitor traffic with Google Analytics or even put some pop ups in for extra money lol.

Want to put it online on a website and promote it.

looking more professional typcially looks more like a scammer. You are trying to pull off the lonely girl needing money tactic.

Also, gives people a chance to spend more time with your pictures and reverse search them.
