Thread: [HOW TO EARN \\$100 A DAY WITH PROOF \[100% SUCCESS\]](#)

EChta - June 10, 2020, 7:32 pm

I started this method 4 months ago and today I have made 3,720\$\$ in BTC without lifting a finger(I usually make 210-325\$ per day).

So what is this method all about?

This is about a bitcoin referral program with 10 levels!

It took me 4 months to reach that number of referrals and I have made 2,7 BTC in total and I will not stop until I get 500\$ per day!

Getting Started:

I will show you below my exact strategies that I used to get that number of referrals so you only need to copy/paste)

First I would ask you to sign up with this Bitcoin promotion program because we are going to use its affiliate links to make \$\$\$.

STEPS:

After opening the site click download button(Android & IOS apps available)

Then just sign up using Gmail account. Now navigate to Links and Promo then copy your affiliate link. To promote the link you can use WhiteHat or Grayhat Techniques

WhiteHat Techniques:

- Copy this thread with your affiliate link and paste it on multiple forums (cracked.to, leakforums, nulled.to, Hackfourms, Bitcointalk.....etc). You can also copy their ready made Social Media posts and share it using real or fake accounts with the help of AddMeFast or other similar services.

- If you can invest money, You should advertise your referral link on blackhatworld.com. Yes you heard me right, with 90\$ per week you can get exposure to 9 million people! Advertising here:

<https://www.blackhatworld.com/pages/advertise/>

- This can bring you 5-20 referrals per day! Its about having a signature on your bitcointalk account! If you don't have an account go there and make one! I always make 15-20 posts per day! For you to attract attention on your post you need to make it at least 80 characters, good explanation/opinion, no grammatical errors etc. This is targeted traffic and you would be amazed to see that you will get referrals from there on autopilot just make sure your posts are HQ!!!

- This method can get you 3-20 referrals every 2 days! You will advertise your referral link via adfly. I have made 7 campaigns with adfly and got 90 referrals.

Grayhat Techniques:

-Sign up using your own link by changing IP (no vpn just sock 5 proxies), system clock time, Browser fingerprint. But this method is risky so do not make more than 10 accounts per day
