Do not believe him!

This person::::::::: [pedos](#)

We talked with him, I showed him working Oday live through TeamViewer, he checked everything as he wanted. He had complete control! he was convinced that everything worked perfectly as was originally said by me. He asked for 24 hours for payment after which he began to carry nonsense that he does not believe that it is exploit and so far. in general, he checked the exploit 5 times and does not want to raft! he is a warm scammer! I ask you to block all forums famenistratsiyu!

his contacts: in Jabber zdexbro@exploit.im and contacts in Telegram: @lecoquar

He constantly opens new accounts and talks from different people.

Many Oday Brokers know him as an information collector and he didn't buy anything from anyone for so much time!
