I sent you the video sir, as you can see it was uploaded a month ago. My team and I have been doing trial and errors with the bot ensuring there is 0 flaws in the program and the functionality is perfect. We had gone through a month of testing to ensure the customer has the best experience with our product.

If you look at OPs posting history you can see he mass asking for a keylogger with some features and licensing system. [Liliths](#) be sure your exe isnt infected cuz files that load for a sec and never opens are propably that. I am not trash selling and i hope im wrong here and ill delete the comment but someone who doesnt know how to code a simple keylogger can code a [BRAND NAME REMOVED] bot? I really hope i am wrong here!

Also somewhat suspicious that he sends the video of a GUI bot but says its cmd line now. If that's what you're selling, that's what your video should be

Angela White - June 14, 2020, 11:05 pm

Everyone who purchased this software, PM me if it's not working for you.

This is not my product and I have no affiliations with it, but if I can help get it working for you guys I will for free. I don't want to see people wasting their money, maybe it's just an issue that I can spot out (as another developer) and help users fix it.

Is it crashing when you open it, crashing when you try using a feature, while logging in, etc?

illuminare - June 16, 2020, 11:25 am

The bot has been switched from CMD based back to GUI. This seems to have fixed a lot of "issues" customers were having. Message me if anyone has questions

Stanley - June 23, 2020, 11:07 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
