User is EXTREMELY rude and I would highly recommend no one deal with them, especially if you're a developer and this user contacts you with a project.

They contacted me on a Saturday (you heard that right), and I forgot to reply to one of their messages. Given that I forgot to reply to a singular message on a weekend, this user called me an idiot both on Discord and HF, and negged me on here, and then blocked me on Discord and left a shitty comment on my sales thread. Didn't even message me twice or even wait 24 hours for a reply.

I guess if you're on HF, before any real conversations are made (and before any payment is made, of course), you are a 100% slave to everyone you speak to and they deserve instantaneous replies and you aren't allowed to have different timezones or sleep.

I probably replied to them once, left their chat open on Discord and went downstairs to do something on my laptop and the message was automatically marked as read because it was open upstairs.

If you are a developer, I highly suggest thinking twice unless you want to be underpaid to do PHP work by some entitled kid yelling at you the entire time.

and the lovely services thread bash even though he's never purchased any products or services from me:

The fact that he called you an idiot for not replying for ONE day's time, is just ridiculous, immature, and he just sounds like an asshole man.

Then to PM you the same thing? Wtf? Like bro the seller might have other services/customers he's dealing with, and ohhh nooo if he forgot to get back to the almighty Debbie Ryan! Smh.

Dude needs to learn the definition of patience and also idiot; because he's the idiot in this case.

LEGENDAVIE - June 14, 2020, 9:09 am

He looks like he has a napoleon complex. Anyway I'm sure I wouldn't want to deal with that attitude.

Dude needs to learn the definition of patience and also idiot; because he's the idiot in this case. Yeah I typically like to relax on my weekends and I was still replying to massive amounts of people. The fact that he didn't once message me "hey bro" or "?" is astounding.

I mean he made a shitty comment on my development services thread and someone straight up called him out and was like "idk dude kasprdev always replies to me" Imfao

Funny thing too is I would have done his project for him if he wouldn't have blocked me and called me an idiot. I woke up to the Discord message and wrote a long apology to him on there about how I was busy, just for it to not go through because I was blocked. Came to HF and saw him bashing my services thread & harassing me on here as well.

His English is even worse than his attitude, haha.
Kids are always fun on the internet.

It is really annoying when things like this happen tbh, I have had a lot of ppl who I talk to and suddenly they disappear and it would be better if you at least wrote to him brb or something like that.

CD_ROM - June 15, 2020, 2:31 am

I see some little manboy got stepped on his toes, jeez lol. Will keep in mind to avoid this trash, thanks OP

Yes but I'm sure you would have messaged "?" or "hey" or something. I legitimately didn't know he replied back to my question.

I would for sure get mad, but I would not harass you as he did.

NAGA SADHU - June 15, 2020, 6:21 am

He was in hurry i guess? He should bring some patience.

Not sure why you would get mad, you haven't paid for a service just enquiring, even if you had people have lives outside of the forum. Having feelings of anger because someone forgot to reply is a sign of an entitlement complex.

Sterling Malory Archer - June 15, 2020, 8:13 am

I think he was in a hurry too as he said he wanted the work that day itself (one can see it in the second line in chat).

But he should have mentioned it and made it more clear before-hand.

P.S. But no one gives him the right to bash others after acting in an unprofessional manner himself lol.

He must be a drug addict or something. He once messaged me complaining that I bumped my thread at a similar time to himself lmao

So he gets angry at me for being busy on a weekend and gets mad at you for bumping your sales thread within the same general timeframe that he did.

What an HQ user lol

Stanley - January 17, 2021, 4:10 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
