Member is a scammer. I run a 2 year old domain that is monitored daily and never had a bot spike. Member said they can provide me with adsense safe traffic and backlinks and suddenly 600 bots hit the site from the same location dropping off every min not browsing at all then he blocks me from discord when I messaged him about it.

Owes me \$30 usd for back links that were not provided and the useless traffic.

anyone looking for this scammer can be found changing names daily. I have tracked down his personal account along with his girlfriends accounts @jazel_ilio on Instagram
