Thread: [HermeS UID 4140312 is a multi accounteer \(scammer\)](#)

**Zabras** - June 15, 2020, 5:16 pm

User: <https://hackforums.net/member.php?action=profile&uid=4140312>

First off, he's selling Genesis market invites for \$225-\$1,000 BTC when these literally cost \$5 max, take a look at his thread and if he edits it well thats enough proof  
<https://hackforums.net/showthread.php?tid=6086390>

I messaged him, and got a message from [another user](#) telling me HermeS has limited access and gave me his discord

If you just look at that user he [vouches for his ebook](#) and whats even weirder is that he [claims to have exchanged "thousands" with him](#). You really think he happened to exchanged thousands of dollars with a new user?

most likely one of those guys who keeps coming back and scamming

So I'm not the only one who noticed it....

And not only that, I checked his contract ratings and it raises questions.

**Pyro** - June 16, 2020, 4:01 am

Also, if u check [SIM-4686768 marketplace profile](#) u can see like 95% of the contracts he made was with HermeS

his trust scan looks like shit too

could be multi boosting his own B-rating

Yes I was just going through that.

How about this one like Spiral mentioned before:

And this should be raising a red flag to anyone who is considering dealing with this member:

**nCuX0** - June 16, 2020, 4:24 am

Thanks for the warning, definitely he is a multi, just a matter of time till he's gone

**SUI-3183372** - June 16, 2020, 7:18 am

Not to mention what he's selling at tid=6086390 is from a well known fraud based marketplace. It's one degree of separation away from selling the CC #'s, Banks, and other financial logins/data himself.

**spiral** - June 16, 2020, 12:42 pm

Who wants to bet that he is either Deployed, or associated with him? His latest scam has the same bullshit "staff approved" on, and this guy has been on my sketch list from when Deployed was selling his shite.

**HERMES** - June 16, 2020, 1:55 pm

Most retarded shit and users I have ever seen on this thread LOL.

You can talk all of the smack you want about me, but that SIM kid has nothing to do with anything. He literally hit me up a month or two ago to exchange when ever I had my CE thread stickied.

He makes \$200-1,000 a day on CashApp/Venmo, and we would exchange all of it. Every. Single. Day.

Obviously you two become close exchanging that much money. So I sent him a vouch copy to review. That simple.

To the retards thinking we are the same person, god bless your soul.

<https://prnt.sc/t0y9hr>

And also, to the other retard who said I am deployed.. LOL. I am literally the main reason he got closed.

Jeez you guys will be in my prayers tonight.

Well when you use the same scummy tactics as someone who was closed for being a scammer (like you), people may assume you have a connection with them. You probably do, maybe you don't. I don't really care either way. But seriously get the fuck off your high horse when you have to scam people to earn money homie. Not a good luck

Please show me where anyone has been scammed?

And don't just say "look at the thread"

Please show me the factual basis of where one person was robbed by one other.

Exactly, you just link a accusation where they have have 0 proof of an actual scam.

My time here's done, have a nice day. ?

If it was just an accusation, it would be easy to clear it up. But no, three different people saying the same thing? Strange that, strange indeed. Do you have a mental issue where you have to lie about being a scammer, if you are gonna be a scammer at least own it.

Look at the accusations and the proof that comes with it.

What do you want? A written document from Genesis or Nulled?

Its as clear as it can get.

And then this: <https://hackforums.net/member.php?action=profile&uid=4686768>

A screenshot of a discord chat, come on for real? Anyone could create a screenshot like that all day long. Its called planning your moves.

Doesnt need any comment. It only shows that you're as bright as a black hole, and twice as dense.

So before you call anyone a retard and give the I-dont-know-what-you-mean attitude you should look at your actions which clearly show how much of a retard you actually are yourself. Look at your business ratings and open disputes. Its exactly how a scammer talks and walks. If you did business the right way we wouldn't be having this thread now would we?

Fool.

I will be watching you, and it looks like i'm not the only one.

PS: You have another DD to take care of. What does that tell you?

I most certainly would not, not my thing to do something like that. What would I even see? Or not see? Ever heard of the term RDP? VPS?

Stop playing games.

Your name is popping up in the DD section multiple times, people accusing you left and right.....alarm bells are ringing.

Solve your open disputes and stop selling air castles.

You say stop replying because everytime I reply I'm ready to show proof of whatever.

But nobody was expecting that so now everyone got quiet and just goes to hard shells.
