As I understand you aren't a developer of this product?

I'm asking it because you recently posted these:

I own the product, I have a team of coders and developers on the back end while I manage the front end. Regardless if I'm the developer or not I take full control of this product.

(Aug 17, 2020 05:55 PM)sagamatete Wrote: [\[CITE\]](#) whats the best crypter for this

Any crypter will work for this as long as it has .net dependencies. We are working on a crypter now for this keylogger.

(Aug 16, 2020 12:43 PM)Arsenic_ Wrote: [\[CITE\]](#) If it captures webcam on interval and you accept paypal (I've been a member since 2008) then please message me. Thanks

It does not capture webcam at this moment. Maybe we will add that to the features in the future updates.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
