Thread: [Where to buy THC/CBD cartridge batteries](#)

funtela - June 16, 2020, 2:15 pm

I'm helping my brother setup his online shop for glass pieces, smoking accessories, etc.

He really wants to sell those batteries people use for carts. Like these:

https://a.aliexpress.com/_dU8slli

Eventually add his own logo on them in the future.

I'm looking for some a bit more affordable and some more cheaper options. Maybe I suck at searching but I can't find any of these on AliExpress or Alibaba.

Anyone know where I can find these to resell? I'd appreciate any help ??

Ehhhh.. I feel like dropshipping these would be a bad idea.

You are dealing with batteries and crossing borders.

I may just be ignorant, but that sounds like a butt load of trouble.

Never thought of that. Would it really be an issue though?

Well I figured with planes being a main part of your dropshipping if you order elsewhere, I know how strict they are with batteries yanno. But I could be wrong!
