Wow, beautiful place. Where is it? & do you live nearby or are you just visiting

Bacardi Cola Lime - June 20, 2020, 10:23 am

Damn. I must've been a beautiful thing to witness while on a hike. Good thing you recorded it!

Nalright - June 20, 2020, 10:23 am

Would love more info about this place as well! What did you use to film?

Megatron - June 20, 2020, 10:27 am

That's crazy to see monkeys. Like the others said, where was it?

P.S. Too bad you didn't see the rare three-headed monkey. It's a true sight to behold.

(Jun 20, 2020 10:53 AM)shady Wrote: ([CITE](#)) Thanks everyone. I have updated the op with details about the place.

Good job on updating the OP with more details. Also, I may add that the video is well-edited and the music is spot on! Wonderful video!

MarvinMalware - June 20, 2020, 11:54 am

Wow beautiful scenery, can't imagine experiencing this I've barely left my state. I really can't help but be jealous lmao.

Octavia - June 20, 2020, 3:07 pm

This is making me crave an adventure! Too many man made structures in my day to day.

Tor - June 20, 2020, 3:13 pm

You should have taken him home with you lmao.

This place is called Kanchanagiri Mountains and is located in the southern part of India, is a range of plateaus surrounded by hills. This mountain has sixty acres of plain area.

This place looks stunning! I'm super jealous.

Are you from there or are you traveling?

StayPlural - *June 20, 2020, 5:53 pm*

Are there any temples out there? I try to learn about India's ancient temples and ancient knowledge/tools. They definitely had some crazy ancient technology.

Also I would be low key fucking scared of some wild monkeys.
