[High Council](#) There's currently three different social media based awards on site; YouTube / YouTube 2018 / Instagrammy . However as of right now none are obtainable. Best you can do at the moment is wait to see what Omni introduces to the Goal Awards page in coming future as stated

below.

Can't wait to see what they are! It'd be cool to see a new version of the Instagrammy award as well seeing they've updated their logo since the old one. (not going to lie though, the old one looks better as an award in my opinion, more distinct)

I've also noticed a lot of forums tend to use the typical "box style logo" for social media. You know, like the blue square around the Facebook "F", or the lighter blue square around the Twitter bird. I think it'd be cool to have a designer make custom versions of those awards and instead of them being the typical boxes, they could instead be the actual thing that represents that specific social media.

I'd love to see it as a goals met, or accomplishment(s) award.

Best regards

Well luckily for you it seems that's what Omni will be doing in the coming future!

Just keep an eye out for an update on the [Award Goals](#) page.

Most social media awards have been & gone since we don't like to keep awards obtainable for a very long time. a year or two is long enough.

I'd typically agree with this however we have the Emerald Donator award as an example, it was one of the first donation awards introduced to HF and is still available for purchase today, which is obviously much longer than a couple of years.

I suppose it depends on what kind of award it is. I do like that some awards are not obtainable after a certain amount of time though, adds to the value of said award.
