Thread: [\[Looking\] Coder experienced in PHP, Javascript & MySQL](#)

Big E - June 23, 2020, 7:13 am

Hi guys,

Looking to hire somebody to build a text-based game. I require somebody experienced in PHP code as well as MySQL databases. Javascript knowledge will also be required.

I can provide examples of a similar game and full instructions will be sent.

Please PM me and include your experience and hourly rate. Alternatively, if you are able to work on a fixed-fee basis, please tell me so in your PM and I will send you full instructions & details for you to provide a quote.

Thanks.

Still looking to get quotes/hourly rates and hear from people who might be interested in taking on such a job.

Big E - July 18, 2020, 6:40 pm

Still looking for somebody to undertake this job if anybody is interested.

Fatboii - July 18, 2020, 9:26 pm

I sent you a PM if you want to reply with some more details, I could come up with a better estimate and price.

Big E - July 19, 2020, 4:00 pm

Still looking. Please do not PM me requesting Discord or any other off site contact. I only deal via HF itself. Thanks.

Broomop - July 19, 2020, 4:10 pm

hi want more details on this?
