Thread: [WIN 300-1000 SATOSHIS DAILY 5 MIN A DAY \(NOT PDF OR PONZI\)](#)

Hi guys, last day I found a PTC that gives lots of satoshis daily and minimum value to withdraw is from 4000 sat in a FAUCETPAY account.

Page have a points system. For example, you will get 0.01 points for each 100sat earned watching ads (only page must be opened and u can do other things while u wait). Firsts days you will get between 300-500 sat and its scalable, depends of your points (people with 3 points can earn 1000 sat in a day easy lol)

If you don't have it here you can create a FAUCETPAY account : <https://faucetpay.io/?r=351623> (use my referer if u want, they give commissions for betting and play games in the same page)

Link to ADbtc page (referer if u want): <https://r.adbtc.top/1715408>

PD: I GOT MY FIRST 4000 SAT IN LESS OF 12 DAYS. THINK THAT EVERY TIME YOU WILL GET MORE SATOSHIS IN LESS TIME, SO POEOPLE THAT STILL IN THE PAGE AFTER A LONG TIME AGO (2-3 MONTHS) CAN EARN 1000 DAILY SAT.
