Give me your discord so we can talk more about this because i do shipping regularly and this service would be very handy in saving cost.

No worries. Will get a vouch soon.

If anyone is interested. I can just accept the min charge then pay the rest once the package has been shipped :)

It's already a big discount of 80% off your total shipment price.

I'm really sorry can't do anything low more than that.

The min fee is there as that's needed for me to make labels. :)
