Thread: [Deep fake creation from an expert. \\$20 per minute of video.](#)

skidhackz - June 26, 2020, 8:39 pm

I don't have time for proper advertisement right now, I will update this thread.

I am offering a service of deep fake videos. I can do any type of video, with no limitations. The result will be flawless and completely realistic, total resemblance to the person you need to fake and no glitches on the video.

If anyone is really interested I can share some of my work in PM.

What I require is a good collection of images of the source person, the higher quality the better, the more angles available the better. I can probably do it with 1000 pictures but 3000-5000 is preferable. The higher the quality and the variety of facial expressions and angles, the less I need.

The source can also be video(s). I need at least 540p quality (or 480p if there are close shots), total duration should be 6'-10' ideally. Those 480p/540p frames can become equal to 720p with AI enhancement (denoise, upscaling etc).

The price is \$20 per minute of final video but if you want multiple videos I can offer a discount. Minimum time is 1.5 minutes, I won't bother for less.

I can offer a free sample of a few seconds to those who are interested. Please don't waste my time if you are not serious.

[contract=tid]Start Contract[/contract]

skidhackz - August 2, 2020, 6:50 am

The offer is still on. The ETA of the video is 4 days, no obligation to pay if you are not completely satisfied with the result.

Captain Pre - August 2, 2020, 7:12 am

Pm me some of your works, Honestly not looking to buy. Just curious thanks
(Understandable if you don't wanna share previous work)

Tristan Tate - August 2, 2020, 9:48 am

I dont know how it works and i need to ask these.

Can you create verification photos or videos my egirl?

Can you create ID verification photos for my ew girl?

skidhackz - August 2, 2020, 10:49 am

Can you create ID verification photos for my ew girl?

I can't do that

BigBadWolf - August 2, 2020, 6:46 pm

You need minimum of 3,000, but up to 7,000 pictures of a single girl? Cool service you're offering,

but who would have that many...?

Big E - August 2, 2020, 6:50 pm

This is an awesome service if it is as good as the OP says it is. I was interested but PM'ed the OP and he said they required minimum 2000 images. Ah well.

@OP: if you could provide an example of the work for us that would be great. Via PM would be fine. Also, if you ever improve software and can do it with around 300-400 pics, please let me know.

skidhackz - August 2, 2020, 10:40 pm

I can't do miracles.It probably can be done with 1000, but I havent tried it.These 1000 though will have to cover many angles and expressions, not being identical.If you have a 5 minute video of a girl, extracted at 6 frames per second, that gives 1800 frames.

I am editing my first post since it can be done easily with with 3000-4000 frames.So the minimum is quite lower.The sample I sent to those interested is done with 3700 frames, around 3550 of those pictures are frames extracted from videos and the rest are instagram pictures.

#RockY - August 4, 2020, 12:22 am

any examples of what you have done ?

Halo - August 4, 2020, 3:14 am

What hardware are you using for this?

skidhackz - August 4, 2020, 3:21 am

Sent you PM

Smexy - August 4, 2020, 3:25 am

How did you learn to do this?
Iam curious

The PC Guy - August 4, 2020, 3:32 am

Can I receive a sample please? Many thanks.

bluud - August 4, 2020, 3:34 am

Send me some examples of what you're doing my man. 100% interested.

Billie Joe - August 4, 2020, 3:35 am

Very cool posting to save

LordDragon - August 4, 2020, 4:01 am

Can you post or pm me some samples?

skidhackz - August 4, 2020, 9:00 am

I sent samples to those who are interested

(Aug 4, 2020 03:25 AM)Sm?exy Wrote: [\[CITE\]](#) How did you learn to do this?

I am curious

There are 2 main software for this, faceswap and deepfacelab. You can download them and learn from youtube. Not easy to learn the theory, then you put some work and you get better with time.

ezeeprofit - August 5, 2020, 3:36 pm

Send me some examples of what you're doing my man. 100% interested.

Papito - August 6, 2020, 1:27 pm

I would appreciate some examples, very interested

skidhackz - August 7, 2020, 6:01 am

Sent samples to those that asked

ShopifyExpert - August 7, 2020, 8:19 am

Interested in a video like this, please send me an example and what we need to proceed moving forward for my video.

crixus - August 7, 2020, 8:44 am

Can I receive a sample please? Many thanks.

driltip - August 7, 2020, 9:32 am

please send me samples , I won't hesitate to buy if I see the samples because I love this kind of things, please I am waiting

skidhackz - August 8, 2020, 2:16 pm

Samples sent

OxaByte - August 8, 2020, 2:41 pm

Please send me samples. Seems very interesting service.

skidhackz - August 9, 2020, 3:57 pm

I won't bother sending more samples as nobody commented. If anyone is serious and wants something specific he can contact me with specific details.

skidhackz - August 13, 2020, 8:54 am

Using 3 AI software for image enhancement (check topaz sharpen AI, denoise AI and gigapixel AI, they perform miracles) and Adobe After Effects I managed to create a perfect quality deep fake with minimal source material that wasn't even HD quality. But 5x the work at least.

I will be free for hire in a couple of days. Only contact me if you are serious and already have

sometime specific in mind.

skidhackz - August 21, 2020, 11:22 am

The source subject data used for the video I mentioned above were only 698 frames (!!!). My client was impressed as was I, because I didn't think it will be possible from such little material. The variety of angles and the fact that 80+% of the frames were HQ were crucial to that success as was the simplicity of the porn scene, which was doggystyle with very little variety in face angles.

Drizzled - August 22, 2020, 7:28 am

I would like to see the samples too, pls dm

ThreeSixMafia - August 25, 2020, 9:37 pm

Please send me samples. Also, do I have to provide pictures if requested person is a public figure with many photos available online?

skidhackz - August 26, 2020, 1:56 am

(Aug 25, 2020 09:37 PM)ThreeSixMafia Wrote: [\[CITE\]](#) Please send me samples. Also, do I have to provide pictures if requested person is a public figure with many photos available online?

No you don't. I can autodownload Instagram pictures and extract frames from videos. I sent you samples.

Silent hill - August 26, 2020, 1:58 am

pm me with sample of your work, i might buy this.

skidhackz - August 29, 2020, 1:38 pm

I used a part of my profits to invest in another GPU. I have a spare motherboard and I'll borrow some rams from a friend. By next week my capacity will be doubled, I can easily prepare 2-3 videos per week.

I'd appreciate some feedback from the dozen or so people that got free samples from me, videos that costed a couple of hundred dollars to those who requested them from me.

I will attend only to people that actually want a video and have specific thing in mind + the required material because my main job and this side job leave me very little time.

Cheers
