First 3 buyers will be getting them at \$15

I will be giving 2 vouch copies to reputable and experienced users only.

Would love to receive a copy. Though Im not into blackhat methods but I can still give you a detailed and honest review here.

Please include details about which methods this guide doesnt include, payout methods, in which countries and regions can this be applied. So basically a F.A.Q. That would definitely get you more sales.

Thank you I've totally forgotten about the FAQs. I'll just wait for more users to ask for vouch then i'll decide on who :)

I have received a vouch copy and I will be providing my honest opinions on this ebook.

I believe that this ebook could make you money, however there are many variables that need to fit perfectly in place for you to even make a few \$\$.

It isn't a method that generates you money online, you will have to physically go out to earn the money. The initial investment is also most likely more than 50 USD I would say.

In order to successfully pull this method off, it will require a lot of transportation and a lot of work will be involved beforehand and even so, there is not a guaranteed success rate.

I won't be able to go into detail with regards to what is written in the ebook, however, I feel this may be only suitable for one country: The USA.
