What Is LazyBucks

LazyBucks is a technology that connects professional marketers with Facebook users worldwide, allowing them to test different ads with different markets. This technology is giving you the option to make money by renting your FB account.

What do I get when using LazyBucks?

Once your account is approved, We give you real cash rewards for every day you are being connected to our extension.

How much money can I make with LazyBucks?

There's no limit to how much you can earn. You will get a weekly payments according to your country from the date of your approval. You can make more money by referring friends by sharing the personal referral link, which can be found on the LazyBucks' profile. Some of our users are earning thousands just by inviting their friends!

How does it work?

Once you have LazyBucks extension installed in your desktop browser, it works in the background. You'll see it in your browser toolbar that you can click on to see your balance at any time. Make sure to keep the extension installed and to stay sign in to your FB account.
