Thread: [StoleVPN \(DDoS Protected\) \[OVH / LND\] \(FREE for 1 Month\) \[All Locations\]](#)

Fiend - June 28, 2020, 9:06 am

StoleVPN was started back in 2018, Starting off as a private VPN we went public in 2019 and ever since we have risen to the top
With DDoS Protected Locations, Insanely fast support and an amazing team.

Come Try Us, Locations: (US, UK, CA, DE, AU)
<https://www.stolevpn.xyz/cart.php?a=confproduct&i=0>

Any support contact me via DM's

Not really protected,
If you allow me to penetrate your website, I can take down your website easily.

Edit : you need to work on your website application layer.

CF is good but you must apply some custom rules in it to make it perfect.

We have custom Rules ie, Rate limits and we have script that triggers UAM if the load goes to certain height.

Still it can be bypass very easily.
Anyways, Good luck mate.
