Interested, would this require VPN to activate in Canada?

Mostly it works without VPN, you may only require VPN to redeem the code, takes a few minutes after that you won't need VPN to stream content.

I was told giftcards must be sold under currency exchange. If you can sell giftcards here, why can't I?

Because these are not legit giftcards, I am not doing currency exchange. People sell Various Codes for various services here all the time.

Currency Exchange is where you either don't make any money off exchange or you make money through the rate. I am not selling them to exchange to BTC or anything, I am selling the product here

not the purchasing power which you can use the purchase something else like Amazon GC. When people go to currency exchange they are looking for fair price not 75% off non-legit acquired gc codes for a service.

This is how I understand it atleast. I have no issues if you want to report it to Staff, I am okay with it being on CE too.

How much of these do you have in stock?

anatho - July 5, 2020, 4:32 pm

this works in Germany?

Also you say no warranty or replacement. But it is for one year, what if it gets revoked after let's say 3 months?

well, no offense but in this case it could happen that I pay \$20 today and my account stops working tomorrow. also may I ask why you don't take paypal for this code but you take it for all other stuff on shoppy?

Yes, you're right however, it wouldn't be possible to change policies because people take advantage of the generosity. Same goes for Paypal, I don't want members charge-back after redeeming their code.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
