Thread: [Music You Slowly Die To?](#)

**Longdog** - June 28, 2020, 4:51 pm

This is what I listen to. Especially now, Idk why but I haven't taken my drug of daily use and I feel like I'm dying and nothing is real.

When I first heard this (15), I didn't understand it. Thought it was one of Mac Miller's worst, but then I grew up. When you grow up you start to relate more and more to this.

I promised myself I wouldn't bitch on HF about my life, but this is where I be at right now. ~oh well. What's your favorite music to listen to when down?

**Method** - June 28, 2020, 4:54 pm

when i used to hit some depression stages i'd only listen to oldschool em. half would be shady and the other half was not really oldschool but definitely not his newer stuff.

I love that mixtape so much. Unfortunately, I found it after Mac's death.
