Thread: [\[\\$500/DAY\] PREMIUM E-WHORE METHOD **MAKE OR REFUND GUARUNTEED**](#)

Disclaimer:

I know my account is pretty new, but I've been around HF since about 2010 or so, I guess my account was deleted (PelaajaHF was my username lol). I've been e-whoring for a little over a year altogether, but this is a method I found myself through trial and error. It will be difficult to gain validity with my new account that isn't upgraded so [b]I'm looking to sell a few copies at half price to a few upgraded members if possible to get some vouches/testimonials. I am only willing to give free copies to trusted upgraded HF members. I am confident in what I've produced, and I will allow my results to speak for themselves. This is over the span of 3 months. Starting off doing this religiously 4-5 hours a day, but after mastering the technique, working 2-3 hours a day making easily \$200-300.[/b]

What is this includes:

This is a 26 page e-book geared towards users looking to gain quick money through E-whoring. This e-book includes great detail on the strategy I use to convince clients to purchase my product, and also includes tips and tricks that allow the buyer of the e-book to get multiple purchases from the customer. Included is a trafficking method, as well as support from the creator (myself) on Discord. I am willing to guarantee if you take the method seriously you will earn easily over \$500 a week. As you master the strategy, gains of \$1000-\$1500 a week will be attainable with a personalized script/setup. I offer instructions on how to set up/prepare the method as well as how to receive payments. There is also multiple "In-field" recordings showing proof that the method is effective, and I'm looking to update it with more recordings when I get more difficult sales. If anyone feels as if my content was not sufficient I will offer a half money back guarantee (to prevent leeches). This method is not "autopilot" by any means, however if done correctly it is VERY efficient in making financial gain.

This e-book was fully written by me. All of the ideas/strategies covered in this book are found by me through trial and error of constant e-whoring. I share my mistakes in the e-book as well as advice that will make you a more efficient seller. I'd like to believe the methods used in this book are unique to me however I have not purchased other e-books so I take no responsibility if any of the content has been discovered. I have written this book with integrity and hope as a reader you will not distribute the content in hopes to make financial gain.
