Thread: [FREE Tutorial - Get \\$15 worth of Crypto with minimum effort](#)

sonic_fire - June 29, 2020, 2:04 am

Hello there,

I found a new method of getting some crypto for free, with no investment. It is not much but the effort you have to invest in is minimum.

Let me know if you're interested by writing on this thread and I'll send you the tutorial I wrote on your inbox.

Have a great day!

LE: It's not about Coinbase and you don't have to be US citizen. You don't have to ID yourself (no KYC/AML). It's not Telegram related.

This thread was united with my other thread and become a brand new one:

Please check the new thread, located here: <https://hackforums.net/showthread.php?tid=6157365>

The methods were updated, it will cost you 100 bytes to download. If you don't have it, just post for 4 days in the check-in thread from the Lounge section.

I found a new method of getting some crypto for free, with no investment. It is not much but the effort you have to invest in is minimum.

Let me know if you're interested by writing on this thread and I'll send you the tutorial I wrote on your inbox.

Have a great day!
