Thread: [DarkComet RAT Safe Download](#)

itznejcccc - June 29, 2020, 2:34 pm

Hello,

does anybody have a legit download of DarkComet with no peoples RATs binded?

Thank you

Kayfox 2.0 - June 29, 2020, 3:15 pm

why, just... sigh just.. I'm lost for words.

Semmenial - June 29, 2020, 6:50 pm

Dark Comet is like 10 years old, and is probably one of the most used RATs ever made. I definitely wouldn't even think about downloading it.

Look for some newer ones, or I would suggest buying one as well.

katerinaxd55 - July 1, 2020, 9:03 am

Lol why you want to use DarkComet ? Its very old and unstable , non updated and will be never.

But if you want to use it as beginner, you can download it from --- connect-trojan.net

RAR Password: tr

I recommend you to use it in VM * :)

i'm done with ratting

Zesty - July 2, 2020, 4:28 am

Gonna help in a minute let me just upload this crazy rat for you! It's called nanocore and this is the version without the errors.

Rat crypters and some antidetec

3thicalnoob - July 3, 2020, 1:41 am

unless you can review the code by yourself for any possible backdoors, you are always at risk!

ademakobu - July 3, 2020, 3:20 am

there's some rat better than dc, and updated too

itznejcccc - July 3, 2020, 3:51 pm

Have you taken up the forbidden but fruitful art of ewhoring instead?

no remember the post about the google ip connected right yeah im way too scared to rat after that

AJL Nations nanocore rat client download with your rat binded, fuck outta here

MLGJettPack - July 4, 2020, 10:50 pm

Dark comet is back when I started learning how to use a remote access tool, your best bet would be too look for a upgrade and a more current version.

androexo - July 6, 2020, 6:14 am

Another shitpost noice!!!!
