Thread: [Awards market page down](#)

Goods - June 30, 2020, 9:52 am

I believe the view all awards page is down or being worked on. When I click on it, it says "this feature is currently disabled."

Are you clicking "Awards Market"?

It's working for me.

All awards. Went to buy awards and that's what I was prompted with.

Edit: all awards and awards market was down for me.

Just give us the link of the page you're on instead of describing a million different pages.

EDIT: If you're talking about this page: <https://hackforums.net/awardmarket.php>

Then yes. It is disabled. Has been for a year+. That was for member-to-member award transfers. Don't expect it back.

If you're talking about the page that lists every award ever granted in chronological order, then that is an admin-only page. You can't access it anyway.

Whatever pages you are referring to seem to be working. If the issue persists, give the actual page links.

Didn't see the edit until after I quoted, my apologies.

No issue. The problem is that when the award market is active, members generally switch their award purchases from HF to members. Obviously that is counter to what HF would like.

I understand completely now. Thank you for explaining.

If you are looking for awards that you don't need to purchase, then check out the [Award Goals](#).

There's quite a few in there that aren't too hard to obtain.

Just got the dicey award today working on the businessman award next. Forgot to post on like my 32nd day and got discouraged.

I've been trying to get the DCI (Daily Check-In) since it was released.

You'd think it would be easy for me. ?

Lol you would think so. I even made posting in the check in part of my daily routine. I still managed to forget it.
