Not giving out anymore promos as we've already had like 17 signups from HF. However, not completing the contract and not DMing me your usernames will also void requests for any problems you may face. I'm tired of DMing all these people who start contracts and never mark it complete.

We're now giving out Promo balance. Send me a Contract to get started.

S????i - July 1, 2020, 11:34 am

I have received some credit in exchange for a vouch.

I've just used it for UberEats in the UK and it works perfectly. Within seconds I received a brand new number to create a new uber eats account. The UI is beautiful, it's simple and no bs. You enter the number, it gives you the code within seconds.

Honestly as easy as that. I will 100% continue to use and support this service.

Absolutely amazing, thank you so much.

Forgot to reply here! I've since gone on to spend \$200 with this seller and cannot recommend them enough! None of my Tinders have been banned due to numbers and are still up :)

Wheelie - July 22, 2020, 11:19 pm

Just checked your site and you have it here listed at \$1.00 for a Venmo sms but I'm seeing \$2.43.

Im also checking other sms like [BRAND NAME REMOVED] for example and you have it listed in your thread at .35c and it's \$1.50

[BRAND NAME REMOVED] prices are different varying on demand/country. As for the Venmo, prices were bumped up recently due to increased demand.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Just want to drop a note here.

This service works flawlessly. The UI is user friendly, it's cheap, and I'm approaching my 10th verification now. Will definitely continue to use.

Do you think more locations are available in the future?
