Thread: [Interest in High DR Backlinks in SaaS Space?](#)

GotSaaSLinks - July 1, 2020, 5:28 pm

I posted on the marketplace, but figured I'd post here to get more relevant eyes on this.

I'm a contractor with access to 3 high DR, high trafficked, US based sites in the SaaS space. I know how valuable relevant backlinks from a top ranking page is, so I figured I'd test the waters to gauge interest in buying some.

SaaS Site #1

- DR 74
- 150k+ Organic Traffic in June (can verify traffic)
- US based .com

SaaS Site #2

- DR 76
- 110k+ Organic Traffic in June (can verify traffic)
- US based .com

SaaS Site #3

- DR 74
- 75k+ Organic Traffic in June (can verify traffic)
- US based .com

Potential topics/pages I could link to include anything related to SaaS, startups, ecommerce, some finance, etc. Not willing to place any sketch/irrelevant backlinks, so don't bother asking.

I'm not in any rush or dire need to sell these, just saw an opportunity and figured I'd see what was out there.

Since 1 backlink isn't going to do too much, I was thinking of selling between 5-10 spread between the 3 sites, depending on the topic and relevance.

So, with that said, is this the kind of thing people here would be interested in?
