Thread: [3 Free Methods of Getting Crypto Daily with Ease](#)

**sonic\_fire** - July 2, 2020, 9:07 am

Hi there,

In this tutorial you'll find 3 separate ways to get some crypto for absolutely free. ?

There is no initial investment needed, it is not about Coinbase, it is not Telegram related.

You don't have to be a US citizen, you don't need to verify your phone number, it's not CPA related, adult or blackhat.

These are 3 methods that I am still using to add some more coins to my wallet.

This tutorial contains 2 methods that I already made public for free and a third one that was not release to public.

It is nothing fancy, some of these methods you might already know and you will not get rich with this, unfortunately... ?

In order to get it, just post on this thread and I'll send it to you through PM.

Let me know what you think about it. ?

PS: +Rep and/or some quick love is not mandatory but highly appreciated... ?

Thanks for your time!

You really are on a roll there with these methods. Already got the 2 from your other 2 threads.

Please send this to me so I can checkout the third one too.

2. No requesting or hinting to gain reps/popularity for freebies.

This is probably a referral and isn't allowed as a free giveaway either.
