Thread: [New Hyper Scape Game](#)

Syome - July 2, 2020, 11:08 am

Today is the premiere of Ubisofts new BR shooter Hyper Scape. It reminds me of Crackdown if it was turned into a Battle Royale. As of now it's a Twitch viewer drop enabled feature in order to play unless given access to as a content creator. Lets see how long it takes for me to get a drop. ?

Looks interesting but a little too much for me, I prefer simpler battle royales like apex or pubg.

There is definitely a lot going on in the heat of the battle. Fun for now but not sure if I see myself playing this long term.

game actually looks decent, but companies need to stop pushing to make battle royales. The chance of them becoming successful is so low against the current competition.

Yeah even as a gamer of shooters myself, i really wasn't a fan of it.
