Gary Clark Jr. - July 2, 2020, 2:31 pm

I mean to put it simply has Xerotic ever acknowledged your existence on Hackforums?

I personally don't think so for me at least, but let me know you might be a special guy/gal.

Semmenial - July 2, 2020, 2:32 pm

I have never spoken to Xerotic EVER. I'm sure he has absolutely no idea who I am.

StickTalk - July 2, 2020, 2:32 pm

Not sure but I wouldn't buy it unless I get to know what's in the next phase. I already have one to spend on the game.

You should probably buy one after you get it from posts. Grind for it

Yeah my luck lately has been awful and the egg drop has been so poor and this lottery has basically killed the game just gotta look and see how much a blue egg goes for ..

Like what's wrong with 3 eggs on the lottery in 1 day ..Say you win a green your stuck with that egg until the lottery end it's crazy and killing the game

Looks fine to me. There were too many eggs added by a person named [Sick](#) for which this update was needed.

You just found a loop for the egg to not expire which came to my mind but of no use to me. I wasn't actively playing the game.

You can only have 1 Independence Day egg on your profile.

If you want to keep a version on your profile forever, you can purchase the permanent version.

Otherwise the permanent or lucky egg drop versions will both be applicable for future game play.

I remember it like it was yesterday. October 2018. You were grinding for Lounge Head... and so close too! So I provided the Lounge with some excitement by using a warning to bring your percentage down from ~90-95% down to 0%.

Stanley - July 8, 2020, 8:29 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
