Thread: [StoleVPN | DDoS Protected | 12+ Locations | Free, Try Today!](#)

Fiend - July 3, 2020, 10:32 am

StoleVPN, started in late 2018 and here we're today expanding and growing beyond providing a service to keep your anonymity and privacy online. Why not try us and experience first hand that StoleVPN will keep you online through the largest attacks.

Most People Say choose a location?, I say why not test All Locations and that what we have done use the link below to test our Tester Plan and test all locations for Free

Tester Plan

what's the worst that could happen? ?
Let me know how it goes brotha

(Jul 3, 2020 11:01 AM)Red Sox Wrote: [\[CITE\]](#) i know main selling point is the DDoS protection ?

how are speeds?

Speeds seem good, We try go for between 100MB/1G/10Gb Port Speeds to ensure we give best speeds possible. But any issues i'll be glad to look into it, But the faster we can get is the main goal.

My Speeds on Internet is 60 Down | 20 Up

VPN Speeds on a Linode Location ~ UK

<https://www.speedtest.net/result/9703246613>

OVH UK

<https://www.speedtest.net/result/9703260363>

If you want some direct speeds from CLI direct from server I'll be glad to do some.

All Logs server side are disabled, as for Datacenter ie, OVH, Linode and FRANTECH might have respected logs

But connection logs, Traffic logs .etc are all disabled

Anything else feel free to ask.
