Thread: [OFFERING SINGLE FILES CRYPTS .NET/Native |Always FUD RT/ST](#)

hUg33 - July 5, 2020, 3:05 pm

Hello swim, I offer custom, Private crypts, with custom features.

Each crypt is manually made, stub is analysed, modified and crypted with your specification.
I will refund All your money if the file is not FUD

SCAN

Private Crypt :

- Hidden Start
- Strong Startup Persistence
- Strong Injection Persistence
- Advance file Binder
- Anti-Memory Scan
- Custom Injection Path
- Custom Coded Stub
- 20kb to 40kb Stub
- Long lasting FUD
- LoadPe for ProcessLess Execution of .net files
- Force .net 2.0 stub to run on the 4.0 framework (This means no message on win8/8.1/10 about .net 2.0)
- 15\$ for 1 Crypt and 35\$ for 3 Crypt

Contact:

Discord : synthelf#0284

Payment : BTC

TOS :

- You can not resell or offer free services with the given crypt.
 - This is a security service. I am not responsible for how you use this service.
 - The purpose of this software is to counter unwanted modification by antivirus solution and counter reverse engineering.
 - By purchasing this service you agree with Terms of Service.
 - Do not scan on VirusTotal or any other distributer Scanner.
- [contract=tid]Start Contract[/contract]

How long are the crypts reasonably expected to remain FUD? As long as they aren't scanned on distributing sites

hUg33 - July 5, 2020, 4:23 pm

Over a month sometimes more ST AND RT
