Thread: [nserit multiple select value using PHP and MYSQL](#)

blackcoder00 - July 6, 2020, 1:53 pm

hey guys i found a problem when i wanna insert multiple values of a select tag in database what is wrong in my code ? i follow the instruction one by one in some book

PHP Code

```
<?php
```

```
$servername = "localhost";
$username = "root";
$password = "test00";
$dbname = "test";

// Create connection
$conn = mysqli_connect($servername, $username, $password, $dbname);
// Check connection
if (!$conn) {
    die("Connection failed: " . mysqli_connect_error());
}

$selectop = $_POST['cars'];

if($selectop){
    foreach ($selectop as $key) {

        mysqli_query ($conn,"INSERT INTO list VALUES ('$key','")");
    }
    echo "New record created successfully";
}
else {
    echo "_error_ : " . $sql . "<br>" . mysqli_error($conn);
}
```

```
mysqli_close($conn);
```

PHP Code

```
<?php
<div class="container">
<form action="php/insert-coffe.php">
    <div class="containers">
        <label>Non produit :</label><input class="item" type="text">
        <label>Prix Produit :</label><input class="item" type="text">
    </div>

    <div class="">
        <label>select zebi</label>
        <select name="cars" id="cars" multiple size="3">
```

```
<option value="volvo">Volvo</option>
<option value="saab">Saab</option>
<option value="opel">Opel</option>
<option value="audi">Audi</option>
</select>
<button>Sell</button>
</div>
</form>
</div>
```
