Thread: [Verified GMB Listings - Thee Money Making Opportunity](#)

JuiceBoxCereal - July 9, 2020, 12:58 pm

I'm not sure if you've ever been made aware of this, but My Business listings are the biggest thing hitting the world of internet marketing TODAY!

It's the best kept secret. Even though many people are learning about GMBs, it's such a small number in reality, and you can start making money with them from the moment they are live. You can't really do that with a website promoting boring ass Amazon products for 1% commission.

How can you make money? ?

1. Lead Generation

Businesses are always looking for more business. The thing is, most people try to sell bullshit SEO or Social Media services and that's not going to work out too well. These businesses are tired of all the cold callers talking about first on Google and spending thousands per month on something they don't understand.

That's why lead generation is fantastic. You can use these listings to forward leads to businesses and make money for each lead, ranging from double digits to triple digits in bigger industries.

Which one would you rather pay for: phone leads that call you because they're interested in your service or thousands on an SEO service that doesn't guarantee you rankings or customers?

Don't make me answer that question, it should be obvious ???

2. Rank & Rent

If you're not into managing phone calls, then you can make money by ranking these listings on top of Maps and just renting out for a monthly fee. For some industries, you can rent it for a \$1,000+ per month because they're getting enough business for it to still be profitable.

All you do is replace the phone number and website with the business' info and you're golden.

3. Online Income

GMBs don't only have to be for local businesses. In fact, you can use them to get people to buy products that you get a commission on or you can get them to come to your e-commerce store.

Let's say you get a listing and name it Weight Loss Boulder Colorado. If you rank on top of Maps, you'll get a bunch of people calling you or visiting your site. Get them to complete your affiliate offer and you get a commission.

Or if you get a listing and rank for Pressure Washer Los Angeles, you can make sales on your e-commerce store if you've got a source, or you just dropship from Amazon, Lowe's, Home Depot,

etc.

Think outside the box

Hmmm would this have any value to a already GMB local biz? Or are you just verifying accounts in other regions of choice for said prices?

You already have a local business? It depends. So if you're a landscaping business, having multiple listings around the city is beneficial. The reason for this is that you get more opportunities to get leads. One of Google's ranking factors depend on location. So if you're searching from a certain suburb, you may get different search results than someone in a different neighborhood. The more GMBs you have, the more chances to make money.

Can you send me a pm with available unlocked categories? Preferably the ones that are best to generate leads as this looks like a good little earner, if theres something that catches my eye i may just go for it, hoe about a sub niche, you say that locksmith is locked but what about auto locksmith?

Hey guys, I'm able to create GMBs again.

At this current time, locked categories are \$150 each listing.

Open categories are still the same price.

It is just a 1 time fee. Not monthly.

Categories that are locked include moving company, garage door repair, carpet cleaners, locksmith, towing company, pest control, personal injury lawyer, plumber, electrician and payday loans.

What does locked out vs unlocked categories?

I'm new to this. Thanks.

Locked categories are ones that Google takes extra steps in verifying they are real. They are nearly impossible to get approved and its in the niches that I specified in the text above (i.e. locksmith, garage door repair, plumber, etc.).

Categories that are locked include moving company, garage door repair, carpet cleaners, locksmith, towing company, pest control, personal injury lawyer, plumber, electrician and payday loans. Just to name a few. There are over one thousand so it's best to ask.

Rankings depend on many factors. You'll need to know how to rank them. I have yet to sell a guide on that.

How interesting. Probably the most review botted service? I was going to buy for one in that

category.
