Thread: [List of the best free and open source RATs](#)

Gober - July 8, 2020, 8:06 am

Pupy: <https://github.com/n1nj4sec/pupy>

Stitch: <https://github.com/nathanlopez/Stitch>

AsyncRAT-C-Sharp: <https://github.com/NYAN-x-CAT/AsyncRAT-C-Sharp>

TheFatRat: <https://github.com/Screetsec/TheFatRat>

Quasar: <https://github.com/quasar/Quasar>

EvilOSX: <https://github.com/Marten4n6/EvilOSX>

Spoiler ([Click to View](#))

nothing here lol

RibbityRabbit - July 8, 2020, 9:45 am

ive used quasar and async and both are really high quility, async more so. But the rest i'm def gonna check out thanks!

edit : i think the fat rat, pupy, quasar & async are the only ones still being kept updated.

edit : i think the fat rat, pupy, quasar & async are the only ones still being kept updated.Thanks for the info, You defenitly want to check out the updated thread (<https://hackforums.net/showthread.php?tid=6093748>) I added more rats for all platforms

7 - July 9, 2020, 3:28 pm

Wack Choas on there is a golang payload generator and control. Actually very simple to use and good on detection rates especially last time I checked. Would we not include metasploit? I know it has other features but remote control is one

Quasar + Async= reverse proxy + password & cookie recovery

It's math ahahahahahah
