Haha I hate all white websites ? Exactly why mine is dark dark grey ? Everything I use has the dark mode option on if available ?

Added a new tool called OTF Upload: Create a one time download link, once someone downloads the file, it deletes itself!

Crimin4L - July 12, 2020, 2:55 pm

Website is not @ <https://crimin4l.cc/tools/> anymore, it is now located @ <https://CTRLhub.co/>

I decided it deserved its own domain, for easier access!

Note All Old links still work, but they will just redirect you to the new website!

Crimin4L - July 15, 2020, 1:37 pm

Added two new tools: GIF Search & WAF Detector

You can now access the Skype Resolver via <https://skyperesolver.co> & it will redirect you to <https://ctrlhub.co/skyperesolver>

Same for the IP Logger, access it via <https://iplogger.us> and it will redirect you to <https://ctrlhub.co/iplogger> (<https://logs.iplogger.us> -> <https://ctrlhub.co/logs>)

Thanks bud, I appreciate the feedback :)

Added two new features called: Subdomain Finder & QR Code Generator

I also found a serious security issue involving a person being able to run their own script from any one of the text input fields.

Example: [\(Click to View\)](#)

This security risk has now been patched!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Been working on it for about a month and a half now.

Just started off with a couple tools on crim4l.cc. Then when I realized it was getting bigger I figured it deserved its own domain so about a month ago is when I bought ctrlhub.co. Just been adding tools/features usually everyday until I hit a wall lol, getting a bit harder now to think up of tools since there is so many :P

Also thanks a lot bud it means a lot <3

PetiteBoulette - September 5, 2020, 3:23 pm
