Well if I can make 10k bits in hour which is about 100\$, and I run it on 10 accounts this is 1k\$ per hour, or 24k\$ per day or 8.7M\$ per year, so if I duplicate accounts will be literally "infinity".

Just wonder as there is ton of scam script around. (it's not trashsale, want hear your answer why you selling it, as I have private script which make me nice money on bustabit, and there is no chance that I will sell it for few bucks, but always look to extend my business)

Nothing is guaranteed, I haven't stated anywhere that this is a guaranteed profit or infinite money maker (If it was, of course, I wouldn't sell it.) Its a really good script that has the POTENTIAL to make you good profit, its way safer than gambling on your own, if you follow my lead and listen to my tips how to properly manage your balance, when to cashout and many other things, the chance of making money is way higher than doing this on your own. I am selling it because, first of all, I have many other better scripts than this that I would not put for sale, and second of all 100\$ is always a 100\$. I will be increasing the price up to 200\$ once I get 2-3 reviews of it.

Ok about script, I'm long time in bustabit and bustadice so I have some clue and what can I say, yes I do profit of 8.8k but you have to be very careful when you decide to play, was give some suggestion to OP for new users.

Always when I comment or buy something related to betting I like to say that you have to be very careful and be ready to lost money, so invest money which you are ready to lost as house at the end always win.

But with this script if you hit good streak and go with little bit bigger bank you can make some nice profit, and ofc don't be greedy, play smart.

It's up to you, if you have spare 300-500\$ for invest go ahead, try and play smart :) just have enough on account just in case.
