I have tried installing Andy but it won't install on my laptop (Windows 10) and I have been told that Snapchat doesn't work on Bluestacks anymore. I was thinking of trying Nox can anyone vouch for it?

Snapchat doesn't work on Memu, Nox or Bluestacks as far as I know.

None, most (all?) don't work with the official Snapchat app.

Buy a modded Snapchat app, you'll also be able to post live pics, etc.
