You can find more about the anime, here:

This anime is also called: Yahari Ore no Seishun Love Comedy wa Machigatteiru. Kan

It's highly recommended to keep your posts in spoilers, but there is no way to enforce that since this is a discussion thread and anything goes. Don't get upset if you read something and you aren't up-to-date with the current episodes.

As for me, I shall use spoiler codes for the first three episodes. After that, I will not use the spoiler code anymore.

Went with the English title to the anime rather than the Japanese so there wasn't this long ass title. Anyways, here's a thread for those who are watching the third season and wish to discuss it. I haven't finished the second season so this isn't on my list this season.

Saw this and I thought some of you might relate. It definitely relates to me with Re:Zero and No Guns Life 2 haha.

This season started off how it should have started, right where we left off. I totally forgot about Kawasaki and I can't remember that one flashback with her.

It's been a long time coming for this anime. I got high hopes for the rest of the season!

It's finally here, lol. It only took FIVE fucking years. This anime is my guilty pleasure, now.. it's time to wait for several episodes and binge it all.

I can't believe they've done this.

Well, it's finally over and I have to say throughout this season it was a tad bit boring. Usually, a slice of life anime has me energized or relaxed but this season was kind of depressing and awkward, just like our two main characters, but they are a bit more lively now I guess. Though I'm glad it finally got

an ending, I'm looking forward to them milking the series with an OVA or two; maybe a movie even. That'll probably take another four years or so lol.
