I sent BTC first, user sent AGC code that was already redeemed. Hasn't sent \$100 via AGC or refunded \$70 via BTC.

Sorry to hear that happened, but you seem like you consistently trade, was there any reason why you went first when you look so much far reputable? Seems like he had a previous open dispute for agc too.

I might have been more reputable but there were no indicators showing that he was planning on exit scamming. The previous deal dispute began after we had made our contract, but for the same goods. I'll edit the thread with more info, for now just trying to make it public.

Hey man. This is probably the weirdest "scammer" you've ever encountered. I've been checked into rehab but i'll do my ultimate best to pay you back as soon as possible. Keep this dispute open. I failed to live up to my end of the deal. I never had any intention of scamming you and I don't have any intentions on ripping you of your money.

I want to apologize once again. So sorry for getting you entangled in shit and giving empty promises. I'm a piece of shit and I know it but i'll make it up to you.

^This doesnt explain why you gave him a redeemed AGC. On top of that you are accessing HF from this so called rehab so you should also be able to access your BTC. Your exchange thread is still open leaving scope for you to pull this "weird scam" on others. So I suggest you edit and close it and write something like "Closed till I refund the people ive scammed and get out of rehab" there.

Just stating things as they are, nothing personal.

Checked into rehab that's hilarious lmao. The crap these scammers come up with. Even if it were true not hard to copy and paste a code and send it lol. Just the fact you've kept two users waiting days is inexcusable alone. Sorry for your losses RHCP and extreme1owning hopefully the scumbag will be closed soon.

You're online multiple times a day, for multiple hours of the day, and have been saying extreme1owning and I will receive a refund since 9JUL. I don't need a story and only want a refund.
