is

<https://hackforums.net/member.php?action=profile&uid=3816596>

I know this because when i messaged Hashbeat for the first time his response to me was "You again? , NO, NOT INTERESTED your proposition"

I mean this would be strange considering i have never messaged this user before and the only person who spoke like that to me in the past and the only person i have ever had an issue with in relation to cryptography was when Techup and me spoke when he wasn't banned on the website where he sent messages in the same way as the one above.

This member is 100% ban evading and even browses and post's in the same threads etc that techup did. Be careful.

hashbeat - July 13, 2020, 10:54 pm

This user is a weirdo because he publishes on the forum hashes to crack and then constantly SPAM my PM and conversation with these SAME HASHES, because he sees that I help other people and not him.

I've never been banned.

When I refused to help him again, he gave me -3 reputation points.

For administration: please calm down this AGGRESSIVE SPAMER and delete -3 points

No, The first time i messaged you was with the hash. As soon as you responded i knew you was the banned user TechUp because of our argument many months ago. It was like your was carrying it on with the new account. You type exactly the same. You have the exact same posting habit. You spend most of your time in the hash crack thread just like your old account.

Your a ban evader.

Also i'd love to see you complain to an admin about the -3...inb4 rep rape.

If anyone want's to see what i mean by posting habits:

Hash's post's

<https://hackforums.net/search.php?action=results&sid=69051a2f924da1e22dae7316ced56799>

Techup's post's

<https://hackforums.net/search.php?action=results&sid=6deac2df1478b30987481820ae3f1798>

Exact same posting pattern etc

hashbeat - July 14, 2020, 7:43 am

You are a cheater because you offer payment in several forums for the same hashes, and then you don't want to pay because someone else has found your passwords. Then you spam other users, me and my friends with the same hashes by PM and conversation.

You have done so many times on hashkiller.io & hashes.com & hackforums.net

For me, you are an aggressive moron and spammer and a cheater because you don't want to pay for work.

You don't understand that anyone interested sees your hashes and should not spam other users with the same offers.

I will never help you because for me you are a moron, a cheater and a spammer.

You mistook me for someone else, you idiot

Can you link me where i have done any of the above?

Dude you sound like an idiot.

Your the only person i messaged with this hash. Im happy to prove it and previous PM's.

Just admit your Techup already. It's clear as day.

hashbeat - July 14, 2020, 9:58 pm

NERO is still spamming my inbox - he still offers hashes to crack.

Today again.

Can the administration of this forum stop this idiot ?, pls

NERO - July 15, 2020, 3:10 am

I mean, You did fall for the little trap when i asked why we had an issue and you literally posted the same message that you sent me from the Techup account months ago.

Peace bruh,

hashbeat - July 15, 2020, 3:20 am

I have helped many people in this forum.

See my posts

But I will never help you, you idiot

Oh? Would you like to explain why?

The first PM i sent to you was a few days ago when i said can you crack this hash, You then responded with the same type of message that you sent from the techup account basically saying "07-12-2020, 01:21 PM

To: NERO
You again? , NO, NOT INTERESTED your proposition"

Here's a PM from Techup "I repeat once again:

I don't want any contract with you and I don't want to work for you - until you pay me at 100\$ by paypal

!!! \$ 100 for further cooperation as an advance because unfortunately I can't believe you and for saving yours 100 \$!!!

YOU WILL NOT WASTE MY TIME ANY MORE !!!"

I mean its clear as day that your ban evading.

Can you guys post screenshot?? i havent seen any screenshot/proof from both parties since yesterday

NERO - July 15, 2020, 5:27 am

It's against the rules to post screenshots of PM's so can't do that,

But i mean feel free to check both accounts post history etc. You should see the pattern.
