Thread: [2x the 125k Jackpot?! No I am not always lucky.](#)

LoremIpsum - July 14, 2020, 2:34 pm

Was playing with some 500 bytes-spin and almost had my second heart attack!
First heart attack; <https://hackforums.net/showthread.php?tid=6082598>

Anyways, just creating this thread to show you members that even I, mister lucky, aren't always lucky haha!

Lost 30k today. Sometimes it's good, sometimes it's bad. That's life and that's gambling.
Never gamble with money you can't afford to lose and take your losses every now and then.

Oh yeah that was life and gambling is a game of chance...not all the time you will win but I guess

most of the time losing is at your side.

Just be very smart to draw when you were really lucky and I know you are good for it because you have proven it many times :)

Good luck bro and keep on winning.

Damn, that's so sad. Soo close. I rarely ever go over 20 per spin unless I have a lot of bytes.

Good luck bro and keep on winning.Thank you my man.

The 'strategy' I tested almost worked again. Guess I just ran out of luck, which isn't that bad :-)

Next time better luck!

20 is a sweet spot for me because i'm satisfied with any win and it's not too much. Once I go over 20 per spin, I get nervous lol.
