Thread: [Free Open Source RAT's 100+ \[Your Future Custom RAT's\] \[GitHub\]\[Many Languages\]](#)

13uNkNoWn - July 15, 2020, 10:28 am

I take no credit, just found the resources online and wanted to share for people who don't know about these.

Hope these help!

Spoiler ([Click to View](#))

Pupy ?5,663

Pupy is an opensource, cross-platform (Windows, Linux, OSX, Android) remote administration and post-exploitation tool mainly written in python

Thefatrat ?4,364

Thefatrat a massive exploiting tool: Easy tool to generate backdoor and easy tool to post exploitation attack like browser attack and etc. This tool compiles a malware with popular payload and then the compiled malware can be execute on windows, android, mac. The malware that created with this tool also have an ability to bypass most AV software protection.

Quasar ?3,403

Remote Administration Tool for Windows

Stitch ?1,586

Python Remote Administration Tool (RAT)

Evilosx ?1,485

An evil RAT (Remote Administration Tool) for macOS / OS X.

Rat ?1,129

Compose shell commands to build interactive terminal applications

Ghost ?600

Ghost Framework is an Android post-exploitation framework that exploits the Android Debug Bridge to remotely access an Android device. Ghost Framework gives you the power and convenience of remote Android device administration.

Lime Rat ?573

LimeRAT | Simple, yet powerful remote administration tool for Windows (RAT)

Powershell Rat ?550

Python based backdoor that uses Gmail to exfiltrate data through attachment. This RAT will help during red team engagements to backdoor any Windows machines. It tracks the user activity using screen capture and sends it to an attacker as an e-mail attachment.

Asynccrat C Sharp ?534

Open-Source Remote Administration Tool For Windows C# (RAT)

Lilith ?424

Lilith, The Open Source C++ Remote Administration Tool (RAT)

Kage ?403

Kage is Graphical User Interface for Metasploit Meterpreter and Session Handler

Rat Via Telegram ?382

Windows Remote Administration Tool via Telegram

Python Rootkit ?313

Python Remote Administration Tool (RAT) to gain meterpreter session

Blacknet ?271

Free advanced and modern Windows botnet with a nice and secure PHP panel.

Ghost ?237

? RAT (Remote Access Trojan) - Silent Botnet - Full Remote Command-Line Access - Download & Execute Programs - Spread Virus' & Malware

Caesar ?218

An HTTP based RAT (Remote Administration Tool) that allows you to remotely control devices from your browser

Androrat ?211

AndroRAT | Remote Administrator Tool for Android OS Hacking

Torat ?193

ToRat is a Remote Administration tool written in Go using Tor as a transport mechanism and RPC for communication

Poet ?181

Post-exploitation tool

Vanillarat ?160

VanillaRat is an advanced remote administration tool completely coded in C# for Windows.

Proton ?142

Proton Framework is a Windows post-exploitation framework similar to other Windows post-exploitation frameworks. The major difference is that the Proton Framework does most of its operations using Windows Script Host, with compatibility in the core to support a default installation of Windows 2000 with no service packs all the way through Windows 10.

N00brat ?135

Remote Administration Toolkit (or Trojan) for POSIX (Linux/Unix) system working as a Web Service

Pandasniper ?133

Linux C2 ??demo,??2??"????????",????????????demo???

Paradoxia ?122

Advanced Attack toolkit, Native C++ RAT, Instagram Brute Force and Password Spraying over Tor, Mass Emailer, Malicious file Sentinel and more.

Green Hat Suite ?109

Green-hat-suite is a tool to generate meterpreter/shell which could evade antivirus.

Outis ?106

outis is a custom Remote Administration Tool (RAT) or something like that. It was build to support various transport methods (like DNS) and platforms (like Powershell).

Technowhorse ?93

TechNowHorse is a RAT (Remote Administrator Trojan) Generator for Windows/Linux systems written in Python 3.

Client ?89

Windows, OS X and linux RAT client

Mass Rat ?88

Basic Multiplatform Remote Administration Tool - Xamarin

Xeexe Topantivirusevasion ?83

Undetectable & Xor encrypting with custom KEY (FUD Metasploit Rat) bypass Top Antivirus like BitDefender, Malwarebytes, Avast, ESET-NOD32, AVG,... & Automatically Add ICON and MANIFEST to excitable

Spacecow ?81

Windows Rootkit written in Python

Blackworm ?80

Black Worm Offical Repo

Teleshadow3 ?76

Telegram Desktop Session Stealer

Thoron ?69

Thoron Framework is a Linux post-exploitation framework that exploits Linux TCP vulnerability to provide a shell-like connection. Thoron Framework has the ability to create simple payloads to provide Linux TCP attack.

C Sharp R.a.t Client ?66

This is a c# client for the c# R.A.T server

Blackrat ?66

BlackRAT - Java Based Remote Administrator Tool

Rat Hodin V2.9 ?66

Remote Administration Tool for Linux

Serpentine ?65

Windows RAT (Remote Administration Tool) with a multiplatform RESTful C2 server

Slickermaster Rev4 ?62

NSA Hacking Tool Recreation UnitedRake

Tinkerershell ?57

A simple python reverse shell written just for fun.

Droidjack ?33

Este troyano para Android es uno de los más completos. Con él vamos a poder tener acceso a remoto a todo el dispositivo infectado, desde la agenda, las llamadas y los SMS hasta el micrófono y las cámaras del smartphone. Todo.

Njrat 0.7d Stub Csharp ?22

njRAT C# Stub - Fixed For PowerShell

Orwell Rat And Botnet ?20

Orwell is a RAT and Botnet designed as a trio of programs by Landon Powell.

Skyrat ?16

SkyRAT - Powershell Remote Administration Tool

https://github.com/alphaSeclab/awesome-rat/blob/master/Readme_en.md

Semmenial - July 15, 2020, 5:13 pm

If you have some programming experience, this is definitely a solid method in order to expand your knowledge as well as ensure your tool is specific to your needs.

Also would be good if you're not trying to worry about raid operations against a RAT seller.

AlGriv - July 16, 2020, 8:50 am

thank you, seems like i have some studying of code to do haha, open source is a great way to learn from others if know what i mean

13uNkNoWn - July 16, 2020, 9:05 am

I agree 100%!

Programming (especially related to hacking) is such a vast area...

I've been slowly picking up pieces of various languages, no actual software creation yet, mainly due to not having enough focus/clear goals.

Eventually I'll be reading sources like these for ideas when I start to focus and create software.

Thanks to all the programmers out there that release open source code for others to learn from!!

Kindness - *July 16, 2020, 9:51 am*

Very informative thread! thank you

tux1 - *July 16, 2020, 10:11 am*

Thanks for sharing this, great for study purposes!

VisualSoft - *July 16, 2020, 10:25 pm*

nice share, I never know there were this many open source rats.
