(Nov 28, 2020 09:47 AM)outlaw Wrote: [\[CITE\]](#) Amazing customer service and unbelievably nice GFX work. 100% coming back to Star for future projects.

We started the contract around 2-3 days prior to payment under the pretenses the work (2 images)

would be finished by Monday and he required the payment before starting the project which usually I'm a bit skeptical of but I was in desperate need so I thought I'd put my faith in him and wow I'm so glad I did.

Star kept in constant contact throughout the whole time and managed to do everything I asked and more! We originally agreed to a logo and banner and then after we created the contract and agreed a price I realized I actually needed one more image for my project so I asked him if this would be possible and if so how much extra it would be (barring in mind the contract had already been set). To my utter amazement he agreed to also do this image for me and at NO EXTRA COST! Anyone else would of told me to fugg off especially after we had already agreed a price on the work. I love you Star <3

Not only that but it came two days early!! I'm genuinely amazed with his finished work and it was better than I ever imagined. Absolutely spot on for what I wanted and really close to exactly what I had imagined in my head. What more could you ask for while working with an artist? And a talented one at that?

(Oh I was also quoted a \$20 higher price for just a similar style logo, let alone 4 images altogether)

One of the images he provided wasn't exactly what I needed but he created one that was and also included the first one so I got 4 out of the 2 I originally requested. Unreal service.

...and on top of all this, he also provided the source files for all 4 images incase I need to make any future edits, again at no extra cost! Thank you so much Star, I'm sure we'll be working together again soon :)

I don't usually leave my vouch for any products or services but this is one service I can definitely vouch for. Top-notch quality.

Scarface & I have been working on a few designs lately to promote a brand and despite a few issues, the deal has been going smooth. He possesses the creative touch you'd ideally want in a designer working for you. He's also been very helpful with suggesting concepts and customizing the designs in minute details.

I've also seen a lot of his work and he's very skilled at making frontend designs. I'm also glad to see the work he's done for me has also been featured on the design/portfolio. We'e also had our fair share of intellectual conversations regarding design, color schemes, and user experience. Looking forward to more work with the user in the future, and I can recommend him for all of your design needs.
