I'm surprised those chimps did all of that with almost no help.

Driz - July 16, 2020, 11:24 pm

Chimps do have DNA closest to that of a human so this actually isn't surprising. Pretty crazy!

Stepdad - July 16, 2020, 11:54 pm

How cool would it be to have one of your own?

BadLandChugs - July 16, 2020, 11:59 pm

Blockonome - July 17, 2020, 1:40 am

Incredible that this can happen, I believe that in the future, they will be like humans, once we humans have uploaded our brains to networks.

Free Kurdistan - July 17, 2020, 3:37 am

Chimps & monkeys in general are sooo underrated man, I really want one in future.

?roye - July 17, 2020, 4:02 am

MarvinMalware - July 17, 2020, 7:15 am

Apparently I'm way too baked to watch this, the fucking sounds this chimp is making are killing me.? On a more serious note though these fuckers are too smart they're gonna take over.

Xerotic - July 17, 2020, 7:17 am

I wonder how long ago it was that we shared a common ancestor with these wonderful creatures.

I always enjoy watching displays of primate intelligence.

PokeBong - July 17, 2020, 7:29 am

Most animals are waaaaay smarter than we give them credit for

S2K - July 17, 2020, 8:20 am

Once in a zoo a women throw a bottle of water to a chimps and of them opened it's cap and drink it. they are smart than most of other animals for sure

BoysWhoCry - July 17, 2020, 10:20 am

?Dødgygeez - July 17, 2020, 11:04 am

This is amazing! Thanks for sharing!

Imagine owning a chimp. That would be awesome.

Imagine making a chimp do things for/with you. That would be so cool.

Imagine making money from doing these things! That would be a dream.

I want one soo bad! What exciting lives these chimps live.

Artisan - July 17, 2020, 11:23 am

This is how Planet of the Apes could begin. We should leave animals be and not try to train them to do stuff like this. The video was very cute though.

Trev - July 17, 2020, 11:29 am

If you think about it, gorillas don't know any bodybuilding techniques so we just don't know what they're capable of.

Have you ever seen that one that was trained to lift 4 London buses and rip apart elephants?

Jamie pull that up,

AnonFrog - July 17, 2020, 2:53 pm

A chimp has an average iq of 80 while a black person has an average iq of only 50.

Let that sink in.

Itachi - July 18, 2020, 2:32 am
