Thread: [Helping newbies setup their botnet. FREE](#)

m1chez - July 18, 2020, 1:53 am

Hello all,

I see way too many obvious scam threads in this forum so I have decided to help any of you newbies for FREE. If you have any questions, need help getting pointed in the right direction, need help with setup, etc I am willing to help. You can shoot me a private message on site or contact me through the following means.

Wire: m1chez

Jabber (OTR only please): m1chez@thesecure.biz

BryZoe - July 18, 2020, 3:43 am

Hey bro I really really need help can you send me a message or something thanks

charlie0161 - July 18, 2020, 8:56 am

can you tell me how to make an API for Axis please?

m1chez - July 18, 2020, 12:24 pm

(Jul 18, 2020 08:56 AM)charlie0161 Wrote: [\[CITE\]](#) can you tell me how to make an API for Axis please?

Unfortunately, I am not familiar with that.

(Jul 18, 2020 03:43 AM)BryZoe Wrote: [\[CITE\]](#) Hey bro I really really need help can you send me a message or something thanks

Sure, contact me.

(Aug 3, 2020 03:32 AM)m1chez Wrote: [\[CITE\]](#) If anyone still needs help, feel free to reach out!
Hey how do you add methods I got the code for it how do you add attack methods on net

AnonTri - November 20, 2020, 1:29 pm

(Nov 19, 2020 10:40 PM)DonkeyDoor Wrote: [\[CITE\]](#) Hey how do you add methods I got the code for it how do you add attack methods on net
copy another method for the net rename it replace the old attack code for the new one and set whatever parameters you need

sunnybhasin.sb - November 21, 2020, 6:59 am

hey i would like to have a chat and ask few things..

iamtherewithyou - November 23, 2020, 1:29 pm

Hey I would like to have a chat.. can you help me out..

m1chez - November 30, 2020, 3:12 am

(Nov 19, 2020 10:40 PM)DonkeyDoor Wrote: [\[CITE\]](#) Hey how do you add methods I got the code for it how do you add attack methods on net
If you are referring to DDoS attack methods, I'm afraid that is against site rules and I will not be able to help you with that.

(Nov 23, 2020 02:29 PM)iamtherewithyou Wrote: [\[CITE\]](#) Hey I would like to have a chat.. can you help me out..

Sure, shoot me a PM with whatever question you may have.

(Jul 18, 2020 08:56 AM)charlie0161 Wrote: [\[CITE\]](#) can you tell me how to make an API for Axis please?

I am not familiar with Axis, and your question is lacking clarity and purpose.

uncommon - December 9, 2020, 11:53 pm

I would like to have a chat and I also added you on jabber

nguyentri38 - December 13, 2020, 7:56 pm

would love to get the guide my g,,can help me

FIVE7 - December 22, 2020, 1:32 pm

this is a good thread. and don't need to be in the downstairs

joseph.a2343 - December 23, 2020, 11:11 am

Hey bro I really really need help can you send me a message or something thanks

nguyentri38 - December 26, 2020, 8:31 pm

haxorcism - January 7, 2021, 11:43 pm

Ive sent you a pm via wire

m1chez - February 16, 2021, 2:15 pm

Sorry for inactivity. If anyone needs help please contact me.

gbxxs - February 17, 2021, 8:10 am

very sorry! I don't understand at all, I don't have any experience. Are you willing to help?

Doomslayer - February 17, 2021, 1:46 pm

(Jul 18, 2020 08:56 AM)charlie0161 Wrote: [\[CITE\]](#) can you tell me how to make an API for Axis please?

It's easy. Just make a PHP script to connect, enter credentials, and send the command. Or you can add another listener on the C2 for the API. I wouldn't use axis tho. It's been public for a while and therefore on everyone's killer.

mte - March 2, 2021, 4:04 am

Hey man anyway you can PM me please?

-Thanks!

likeprofessor - March 10, 2021, 11:41 am

hi m1chez, are you still offering that? I got a couple questions, can you help me out? shot me a PM if so,

Doomslayer - March 11, 2021, 5:45 am

(Mar 10, 2021 01:37 PM)Incog Wrote: [\[CITE\]](#) I obviously have no sort of issue with OP or what he is offering, I view it as a useful and helpful program, but remember to maintain common sense and security when working with others.

By that I just mean letting others onto your servers, and running certain commands. Although OP doesn't seem like that dude, this seems pretty clean.

Good job offering this service.

When I first read this post I just assumed he was infecting every server he got access to. People don't usually spoonfeed others just out of the good of their heart. People do it to gain rep, because they are bored, and sometimes to take advantage of people.

Again, not accusing OP of anything and if he is running an honest service that's great, but use common sense when handing over your root login. Also at least make an attempt to learn. Being spoonfed won't help you in the long run. Setting up botnets is a great intro to learn about unix commands, web servers, and compiling programs.

i need help pm me please

mozeltav3 - August 1, 2022, 11:19 am

I have a question. If you are targeting a specific person how do you determine what operating system they are using? A lot of people have macs these days. So most RAT's wont work on them.

Ph4n70M Phr34K - August 1, 2022, 11:28 am

(Aug 1, 2022 07:17 AM)etizolamvndor Wrote: [\[CITE\]](#) i need help pm me please
this thread is 2 years old and OP has not been online for a while, pretty sure he doesnt offer this service anymore.

If you need help then you can post your own thread with your concerns.

(Aug 1, 2022 11:19 AM)mozeltav3 Wrote: [\[CITE\]](#) I have a question. If you are targeting a specific person how do you determine what operating system they are using? A lot of people have macs these days. So most RAT's wont work on them.

when you visit a website, it can "see" what OS you are using so it can also serve you different payloads, depending on your OS, thats pretty easy to do.

mozeltav3 - August 2, 2022, 12:45 am

(Aug 1, 2022 01:15 PM)Incog Wrote: [\[CITE\]](#) javascript code:

```
Code let OS="Unknown";
if (navigator.appVersion.indexOf("Win")!=-1) OS="Windows";
if (navigator.appVersion.indexOf("Mac")!=-1) OS="MacOS";
if (navigator.appVersion.indexOf("X11")!=-1) OS="UNIX";
if (navigator.appVersion.indexOf("Linux")!=-1) OS="Linux";
console.log(OS);
```

There are other ways to check for information like this, like user agents

on windows I believe it gives you the version, but i'm not 100% about it
yeah I saw this thread was pretty old but still near the top of the page so I figured it was worth a shot. Thanks for the answer.

So in your scenario I would make a website and have that javascript code to log their IP and OS.

One other scenario I was thinking is you could just go in blind and send 2 different versions of RAT's by email. One Windows and one Mac and hope they run both files. That way one of them should work assuming they are not using Linux. Not sure what kind of error message they would get for the incorrect OS and if that would make them suspicious.

Does anyone have experience trying both scenarios? Is one better in your opinion?

mozeltav3 - August 2, 2022, 6:32 am

(Aug 2, 2022 04:41 AM)Incog Wrote: [\[CITE\]](#) I don't have the experience of trying that but I would go for using the js code to send a platform specific payload

Is it a silent download in the background? Should the user have to download a file?

Any resources you know of for how to set that up without triggering any AV's?

Viirez - August 17, 2022, 3:59 pm
