Thread: [<VOUCHED> BLACKHAT METHOD | 2.5-3x RETURN | DETAILED STEP BY STEP GUIDE](#)

Fivio - July 19, 2020, 4:18 am

Selling this method as I won't have the time to do it, nor I want to do it anymore as I will be moving to another city and have decided to just focus on my legitimate business, although it makes much less than this method.

The method is about exploiting a website for CS:GO skins. Although it may sound easy to some people, to most people it is not.

With my guide you will learn how to do this step by step and to get \$350-400 worth of skins each time you do this.

For each completion of the method you'll need around \$100-140. That is given you use the sources I have provided for you. There is room for slight improvement on one of the sources but I simply haven't bothered as that would save you no more than \$20.

For the method you'll need a smartphone. That is mandatory, the rest of the stuff you need you'll find in the guide.

Using my method we'll be exploiting a website and getting CS:GO skins from it.

After the skins are transferred to our Steam account we would have to wait 7 days until the trade limit lifts.

After the trade limit is lifted we can proceed to sell the skins from BTC or whatever you like on any of the lots and lots of marketplaces for skins.

It takes maximum a day to get the skins to your Steam account. Of course that time varies and can also be done in a few hours, that doesn't depend on me but the website. You do that once a day, once every 2-3 days or even 2-3 times in a day.

10 copies sold. No more copies will be sold.

I have plenty of experience with Steam and trading skins, also I've done some black hat stuff in the past.

Would love to review the method and post actual proof.

BITCHLESS - July 19, 2020, 4:37 am

Does this only work on one specific website?

I can take vouch copy if you think I'm HQ enough.

I owned csgo casino

Synio - July 19, 2020, 6:43 am

Very interesting. Will wait until a review drops.

Also I have some questions but let's wait until the review.

NynTint - July 19, 2020, 9:24 pm

This is lootbear basically :)

nice money to earn from really

Deathy - July 20, 2020, 5:11 am

Unsure if you'd deem me suitable for the vouch copy, but do let me know. I would 100% actually attempt it and leave a review.

KR.

Absolutely no issues at all. :)

I look forward to the review, I may purchase.

SIM-4378207 - July 21, 2020, 5:20 am

So here I come with the review.

The guide is well written and detailed. I still managed to find some steps that might confuse some people and told OP about them, he said he will fix them.

In the method he has given all the necessary sources for you to complete the method and get you a pricy skin. Some of the more hardcore CS:GO players might have heard about something like that but I doubt they have done that as without the information that OP has given you, it wouldn't be easy at all to pull this off.

I started the process yesterday evening and did everything I had to do, no more than 15 minutes of work. When I woke up today I was able to withdraw skins up to \$400 so I did get this one. And I can also get one more up to \$60-70 as the skin I withdrew is around \$330.

Spoiler [\(Click to View\)](#)

The only downside is the Steam trade limit.

I would be able to cash out this skin on July 29th due to Steam's trading rules. Also you can do this method once per Steam account.

@ OP - just to clarify, I would need a new steam account each time I attempt the method?

Synio - July 21, 2020, 6:08 am

I'll bite. Looking forward to try this, something new for me.

Overall the method seems really interesting. Pretty clever way to exploit a website's weakness. Will try it in a few days when I get enough money as it has been stated I will need around \$130 BTC to buy the materials that are necessary. You'll need pretty much the same investment everytime you do this.

Make sure to come back and tell us how that went! Indeed, you need the same investment each time you do this, there could be some improvements and I'll make sure to include them if I stumble upon one.

Updated some stuff in the method, added some more details and sources.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
